COMPUTERS IN INDUSTRY

Contents of volume 29

Volume 29, Nrs. 1–2, July 1996

Special Issue: Intelligent Production Systems

CONTENTS

Guest editorial

1 1 WET ICE '95
J.R. Callahan

Papers

5 Process enactment support in a distributed environment
K. Alho, C. Lassenius and R. Sulonen

15 Business process redesign: A Petri-net-based approach
W.M.P. van der Aalst and K.M. van Hee

27 Engineering design notebook for sharing and reuse
J. Hong, G. Toye and L.J. Leifer

37 cairo: A system for facilitating communication in a distributed collaborative engineering environment
F. Peña-Mora, K. Hussein and R.D. Sriram

51 A collaborative environment based on distributed object-oriented databases
U. Jasnoch and S. Haas

63 User interaction with machines on the move: Location aware computing
G.J. Nelson

71 MediaWare: A distributed multimedia environment with interoperability
Y.Y. Al-Salqan and C.K. Chang

79 Infrastructure support for cooperative mobile environments
A. Schill and S. Kümmel

91 Collaborative hyperdocuments and prototyping groupware
J. Navon, D. Stotts and R. Furuta

105 Core services for coordination in concurrent engineering
M. Klein

117 Remote access to CAD databases using an information sharing system
S. Fowler and R. Karinthi

123 An organisation ontology for enterprise modeling: Preliminary concepts for linking structure and behaviour
M.S. Fox, M. Barbuceanu and M. Gruninger

Events

135 Calendar of conferences and events

Volume 29, Nr. 3, August 1996

Papers

137 Development of an automatic part feature extraction and classification system taking CAD data as input
S.-C. Liu, M. Gonzalez and J.-G. Chen
151 An efficient automatic tool path generator for $2^1/_2$D free-form pockets
C.A.H. Lambregts, F.L.M. Delbressine, W.A.H. de Vries and A.C.H. van der Wolf
159 Application of manufacturing message specification for flexible manufacturing system control
J.J.L. Neve and A.W.A. Plasschaert
169 Automatic scheduling and control of a ship web welding assembly line
Y. Tu
179 Computer-assisted fabrication of orthodontic appliances
F. Sassani and S. Roberts
197 An algorithm for converting the contour of a 2D workpiece into a rectilinear polygon
M.-C. Wu and J.T. Wang
209 An adaptive agent for case description in diagnostic CBR systems
A.R. Montazemi and K.M. Gupta

Short note

225 Gaining CIM's benefits
M. Attaran

Miscellaneous

229 Author index to volume 29
231 Subject index to volume 29
233 Contents of volume 29
235 Calendar of conferences and events
